

David Horton

Candidate for APW Board of Education

1. Why did you decide to run for the Board of Education? What perspective do you feel you would bring to the board?

Dealing with boys [in Boy Scouts] the last 18 years, they tell you what is missing in the classroom. They say they are not prepared for college.

2. What do you view as the greatest challenges that our school district faces?

We have to have more college courses in our junior and senior years.

3. What do you view as our district's greatest assets?

We have the school and the staff to handle the courses.

4. The Board of Education will be working to hire a new superintendent in the immediate future. What qualities and qualifications do you think this person must have?

This person must have an open mind, and a look to the future. Must be open to suggestions for improvement.

5. Thinking about the budget, what do you think the District's priorities ought to be?

Sports is a large item on the Budget. We need sports in school. What we don't need is things like a \$50,000 press box. The food stand should be able to pay some of the expenses for uniforms and such.
